

Quilt/pillow coiling machine

This series is used to compress fluffy clothes, mattresses, pillows, cushions and other fluffy items. Can reduce the volume, reduce storage and transportation costs. Packaging bags can be a variety of materials, plastic bags, non-woven bags, woven bags, paper rings, etc. can be. PLC touch screen is of simple operation, safe and reliable, high efficiency. Products after packed are very beautiful, easy to carry, and the machine is really the ideal export packaging equipment for home textile handicraft industry, especially for Taobao, Tmall, Jingdong and other courier business.

Specifications:

- 1) Package diameter: $\Phi 130\text{mm}-\Phi 350\text{mm}$
(need to replace the different molds, special size can be customized)
- 2) Voltage: three-phases, 380V, 50Hz
- 3) Power: 3.75kW
- 4) Air supply pressure: 0.5-0.8Mpa
- 5) Packaging capacity: 2-6 pieces/min
- 6) Dimensions: (L*W*H) 2260mm \times 1060mm \times 1500mm
- 7) Manually adjust the mold gap
